Task Forces and recommendations

Task Forces tackle issues and challenges affecting the digital heritage field. Browse through their recommendations.

Task Forces are set up to allow our members (with the aid and supervision of the Members Council) to take on specific subjects or areas of common interest to the digital heritage field and Europeana's Strategy 2015-2020. They run for a limited period of time (usually for six to nine months) and result in the delivery of a set of recommendations on their subject.

Task Force recommendations help improve Europeana's annual working plan (Business Plan) bringing it as close as possible to the needs of the digital heritage sector. Feel free to contact any of the current Task Force chairs to ask them about their activities, or browse through the deliverables of the past ones. You can read more about the work done by last year's Task Forces in this blog post.

Task Forces can be proposed and joined by anyone from the Network Association. If you'd like to submit your own Task Force, read the Terms of Reference, fill in the proposal form and submit it to the Members Council for reviewing via this email.

📅 1 May 2016   to: 📅 31 January 2017

The task force will propose a set of necessary improvements to the accessibility and usability of heritage av collections as well as index the standards and solutions that can be applied more broadly to improve the experience of audiovisual sources on and through Europeana.

Task Forces - final recommendations

📅 1 May 2013   to: 📅 31 October 2015

Browse the published recommendations of our completed Task Forces. The title of each links to the related recommendations.

They were set up to allow our members (with the aid and supervision of the Members Council) to take on specific subjects or areas of common interest to the digital heritage field and Europeana's Strategy 2015-2020. They have been running for a limited period of time and the result can be found in a set of recommendations on their subject.
